Electrical Contractors

ENVIRONMENTAL POLICY

Gary Pitt and Company Limited are concerned for the environment and the potential effect that its activities are having upon it. The Directors are committed to stating objectives, measurable targets and to the prevention of pollution. Due to this commitment we have started and will continue to ensure that all senior directors/managers are qualified to ISO 14001 requirements.

Measuring and reducing our environmental impact is a key business issue that Gary Pitt and Company Limited aim to address.

Our system will help us develop green business solutions internally with both our staff and externally with our clients and supply chain.

Minimise waste by evaluating operations and ensuring they are as efficient as possible.

Actively promote recycling both internally and amongst our clients and supply chain.

Gary Pitt and Company Limited's commitment to environmental issues and to continual improvement of its environmental performance by implementing performance measurement and awareness training through the business.

Under the leadership of the company Environmental Director, a management system has been developed which is appropriate to the nature, scale and environmental impacts of our company's activities and services.
